

Kalea Bay Framing Addendum

The Kalea Bay steel stud framing dimensions for the see-through models are in a manufacturing transition mode (running change). Some models will have a framing dimension of 16" however some will have a framing dimension of 15". The framing dimension is based upon the "Top Hat". This is the upper metal box above the fireplace opening. See Fig. 1. On some models the "top hat" will be 16" across however some may be 15". Base your framing dimensions upon the depth of the top hat. See the "C" depth shown in Fig. 1 and the table below.

This affects See-Through installations only.

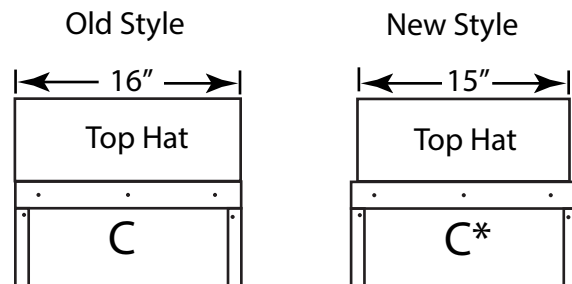

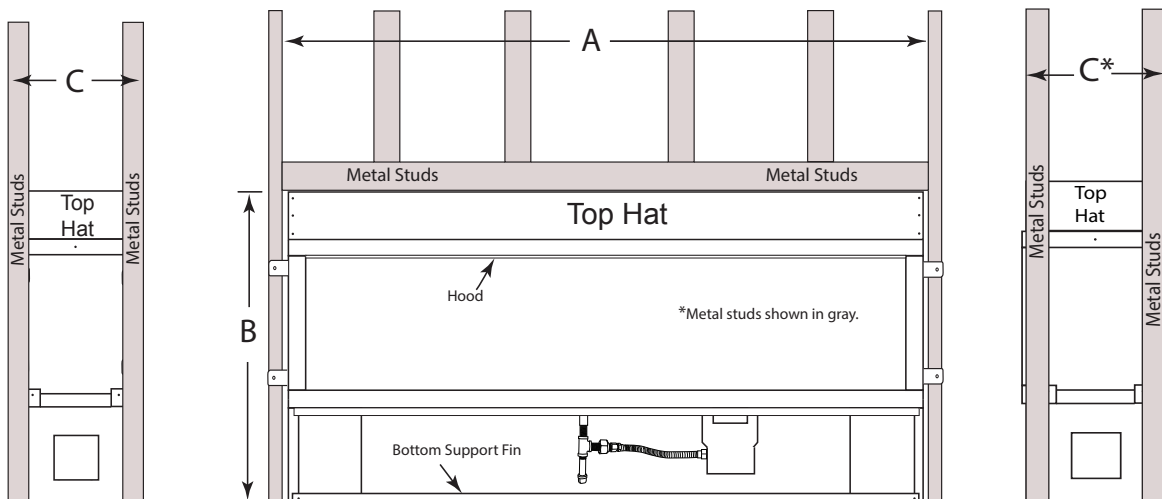

Fig. 1 Shows top hat changes.

| Model: Natural Gas (NG) | Model: Propane Gas (LP) | A Width | B Height | C Depth | C* Depth |
|----------------------------|----------------------------|------------|-------------|------------|-------------|
| OFP-L36TFS-N | OFP-L36TFS-P | 40 1/2" | 37 3/4" | 16" | 15" |
| OFP-L48TFS-N | OFP-L48TFS-P | 52 1/2" | 37 3/4" | 16" | 15" |
| OFP-L60TFS-N | OFP-L60TFS-P | 64 1/2" | 37 3/4" | 16" | 15" |
| OFP-L72TFS-N | OFP-L72TFS-P | 76 1/2" | 37 3/4" | 16" | 15" |
